DETAILED ACTION

Claims 12, 17, and 19-24 are pending.

EXAMINER'S AMENDMENT

The application has been amended as follows:

In Claim 21, line 1, replace "18" with --19--.

This change is made to correct an obvious error with respect to the dependency of claims. Claim 21 had depended from claim 18, which has been incorporated into claim 19, and claim 18 has been canceled. Since it is clear that claim 21 was intended to depend from claim 19, and not a canceled claim, the attorney of record was not contacted regarding this correction.

Allowable Subject Matter

1. Claims 12, 17 and 19-24 are allowed.
2. The following is an examiner's statement of reasons for allowance: The closest prior art, including the references cited on form 892 of the non-final action mail date 03/06/2006, fail to teach or reasonably suggest to one of ordinary skill in the art to make hinges non-uniformly flexible. The cited prior art also fails to show a shared common axis for the arms, and this feature in conjunction with all the additionally recited features of the razor makes the claimed invention non-obvious and novel. not present, taught or suggested in the prior art of record, which is the closest art available to the examiner. Having addressed the three independent claims in the case, no further discussion of the dependent claims is deemed necessary since they present no formal objections, and their dependence upon an allowable independent claim makes them likewise allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
